Wps office pdf apk

Continue

With capable useful office apps now available on your Android devices, there is no need to always carry around your laptops to handle certain productivity tasks. However, you'll still need to look for the right app among many generic products on the store. And speaking of which, WPS Office is undoubtedly a great mobile app for any office users.Feel free to make uses of the fully-featured office suite that features all the important software like Word, PDF reader, Excel, PowerPoint, Forms, and many other convenient services within the app. Enjoy the useful features that the app has to offer and always make the most of it when working with WPS Office.Learn more about this interesting mobile app from WPS Software with our comprehensive reviews.What does it do?Here in WPS Office, Android users can attempt to work on their productivity tasks by fully utilizing the useful office tools, including Word, Excel, PowerPoint, Forms, and many common services. At the same time, also exploit the power and capable mobile devices, through the uses of Cloud Storage, Template Gallery, and Online Editing & Sharing features, which will make the app extremely accessible and usable.Also, for those of you who are interested, you can learn to work with the professional in-app features, which will help you complete certain tasks as quick and clean as possible. From doing remote computer works, online studies, to office tasks or E-learning, WPS Office can help you with all your tasks while maintaining the absolutely comfortable in-app experiences. RequirementsTo start enjoying the awesome mobile application of WPS Office, you can simply download the free app on the Google Play Store without having to pay anything. Let the app automatically installed on your devices and you can start working with many of its features. And to unlock more features, feel free to play for your certain in-app purchases to make the most of WPS Office on your Android devices.Also, make sure that you are providing all the requested access permissions from the app, which are needed to enable the fully-featured application. So you should remember to accept certain requests upon entering the app for the first time.In addition, WPS Office will require users to have their devices running at the latest firmware version possible, preferably Android 5.0 and up.Awesome featuresHere are all the exciting features that the app has to offer:Compatible with other common office suitesTo start with, Android users in WPS Office can comfortably work with their powerful tools, which is both functional and fully compatible with other common office suites. Feel free to enable the app on your Android devices and you can start working with all the available files from MS Office 365 or Google Docs, Google Sheets, Google Slides, Google Forms, Adobe PDF, OfficeSuit, and many others. The universally integrated documents, spreadsheets, presentations, and PDF files will be extremely accessible for most of you, making the app quite usable.And speaking of which, you will be able to open many common office file formats from many different apps, using WPS Office. These include doc, docx, wpt, dotm, docm, dot, dotx / xls, xlsx, xlt, xltx, csv, xml , et, ett / PDF / ppt, pot, dps, dpt, pptx, potx, ppsx / txt / log, lrc, c, cpp, h, asm, s, java, asp, bat, bas, prg, cmd, Zip, along with many other files. Thus, allowing Android users to always enjoy their fully-featured mobile app.Powerful PDF app for your Android devicesTo make the app more interesting, Android users can now fully utilize their powerful PDF app and enjoy many advanced features. Start by having the app scanning your entire system to look for available PDF files on the devices. The Free PDF Reader can also convert all office files into PDFs, making them more suited for viewing and printing. You can even scan books and turn them into editable PDF files using WPS Office.And speaking of which, WPS Office does support many useful editing features for Android users to comfortably work on improving their PDF files. Start by making certain annotations on many parts of the documents so you can better understand its context, users can then add signatures to certain files, or even insert and remove watermarks with ease. In addition, to make the certain files more editable or easy to work with, you can perform simple edits, like extracting, splitting, merging, or converting your PDF files. Useful PowerPoint features on your Android devicesFor those of you who are interested, you can now enjoy the fully-featured PowerPoint tool in WPS Office, which offers many useful and functional options that you can't even find on PC apps. Feel free to customize the layouts, animations, transitions, and other effects in your selected slides. Also, make uses of the touch controlled laser pointer and Ink feature to start drawing intuitive on your presentations. In addition, you can also create PowerPoint documents using WiFi, NFC, DLNA, and Miracast, which is quite useful for remote uses.To better deal with Sheets or Forms, Android users can make full uses of their WPS Office tools to perform simple and basic settings, or enjoy working with the advanced in-app features, which will make it a lot easier for you to complete certain pieces of edits on your files. Add useful formulas to do advance data managing and calculations. Or create questionnaires with different themes on your forms. Plus, the two tools can fully integrate with each other. Thus, allowing you to enjoy working with the fully-featured and convenient application.When working with documents, users can also enable bookmarks on many of their selected documents. Simply create bookmarks on certain pages of your PDF, words, slides, books, and other files, which you can comfortably revisit later on.Convenient file managing optionsTo effectively manage the certain files, you can always make uses of WPS Office to quickly manage the selected content. Feel free to extract archived files on your system, merge any selected files together, and make uses of many available features in the app. And for those of you who are interested, you can enjoy working with the reduced file sizes on all your documents, thus, enabling more space to store your devices.Useful picture convert optionsAnd for those of you who are interested, you can enjoy working with pictures in WPS Office. By simply enabling the convert option, you can quickly turn any pictures into the respective Doc, Sheets, or PPT files. As a result, you can enjoy quick and effective editing with the mobile app.Never lose your files with WPS OfficeTo make sure that you won't lose your files even when you haven't backed them up, WPS Office will provide its recycle bin to keep your temporary deleted files. Hence, you can easily have them recovered when needed. In addition, unusual files can also get fixed in WPS Office, thanks to the intuitive file repair option.Customize the reading backgroundFor those of you who are interested, you can now enjoy customizing the reading backgrounds in WPS Office with many available options. Feel free to turn the platform horizontal or vertical, and make uses of many provided features to effectively edit or adjust the viewing of content.Convenient solutions for online workingHere in WPS Office, Android users can enjoy working with the convenient office tools with online features. Here, you can get up to 1Gb of free cloud storage from WPS Software, which will allow you to easily store and share your files. Feel free to enable group editing to work with teams in WPS Office. And feel free to share your documents via different instant messaging or email platforms.Work well with other online drivesAt the same time, WPS Office can also work well with other online drives, thus, allowing Android users to comfortably work on accessing and editing their files on Dropbox, Google Drive, Box, Evernote, OneDrive, and many other cloud drive services. All your edited documents will be automatically saved so you won't lose your settings. In addition, the available cloud services will make the documents more accessible on different platforms.Select your preferred languagesFor those of you who are interested, you can enjoy working with more than 51 different languages in WPS Office, which will make sure that you can always run the app with your preferred language options. Feel free to choose between 51 localizations and make the most of WPS Office with intuitive in-app UI.Have access to many productive assets from WPS OfficeIn addition, to make the app more usable and convenient, Android users can attempt to work with many in-app products from WPS Office. Start by exploring the different Font Packages so you can easily convert the selected documents to any preferred font settings. Enjoy working with useful Presentation Templates that allow you to easily create your slides. The list goes on.Enjoy the free and unlocked app on our websiteWhile the app is currently free for Android users to make uses of, there are still ads and in-app purchases that you will need to deal with. So if you don't want to pay with real money, it's always better to go for the modified version of the app on our website. Here, we provide the premium WPS Office applications and remove all the annoying ads. Thus, allowing you to make the most of the mobile app. All it takes is for you to download and install the WPS Office Mod APK, follow the provided instructions, and you're good to go.Final verdictsFor those of you who can't afford the fully-featured yet expensive MS Office 365, WPS Office would make a perfect alternative for your daily productivity uses. Enjoy working with all the common office tools and make uses of innovative features in WPS Office to have fun with the convenient mobile app.
